

The logo icon consists of three stacked, rounded rectangular shapes. The top shape has a small green dot on its left side.

# New Retex

Textile Sorting and Recycling

---

Consumer waste sorted by colors and composition

# What are we **looking for?**

Investments in the roll-out of our sorting company internationally and within the EU, through partnerships.

"Smart money"

It has to be fun and exciting!

# Why fashion can't keep doing **bussinus as usual.**

Today, less than 1% of our discarded textiles are recycled into new textiles.

New legislation will improve the textile industry and help create a circular economy.

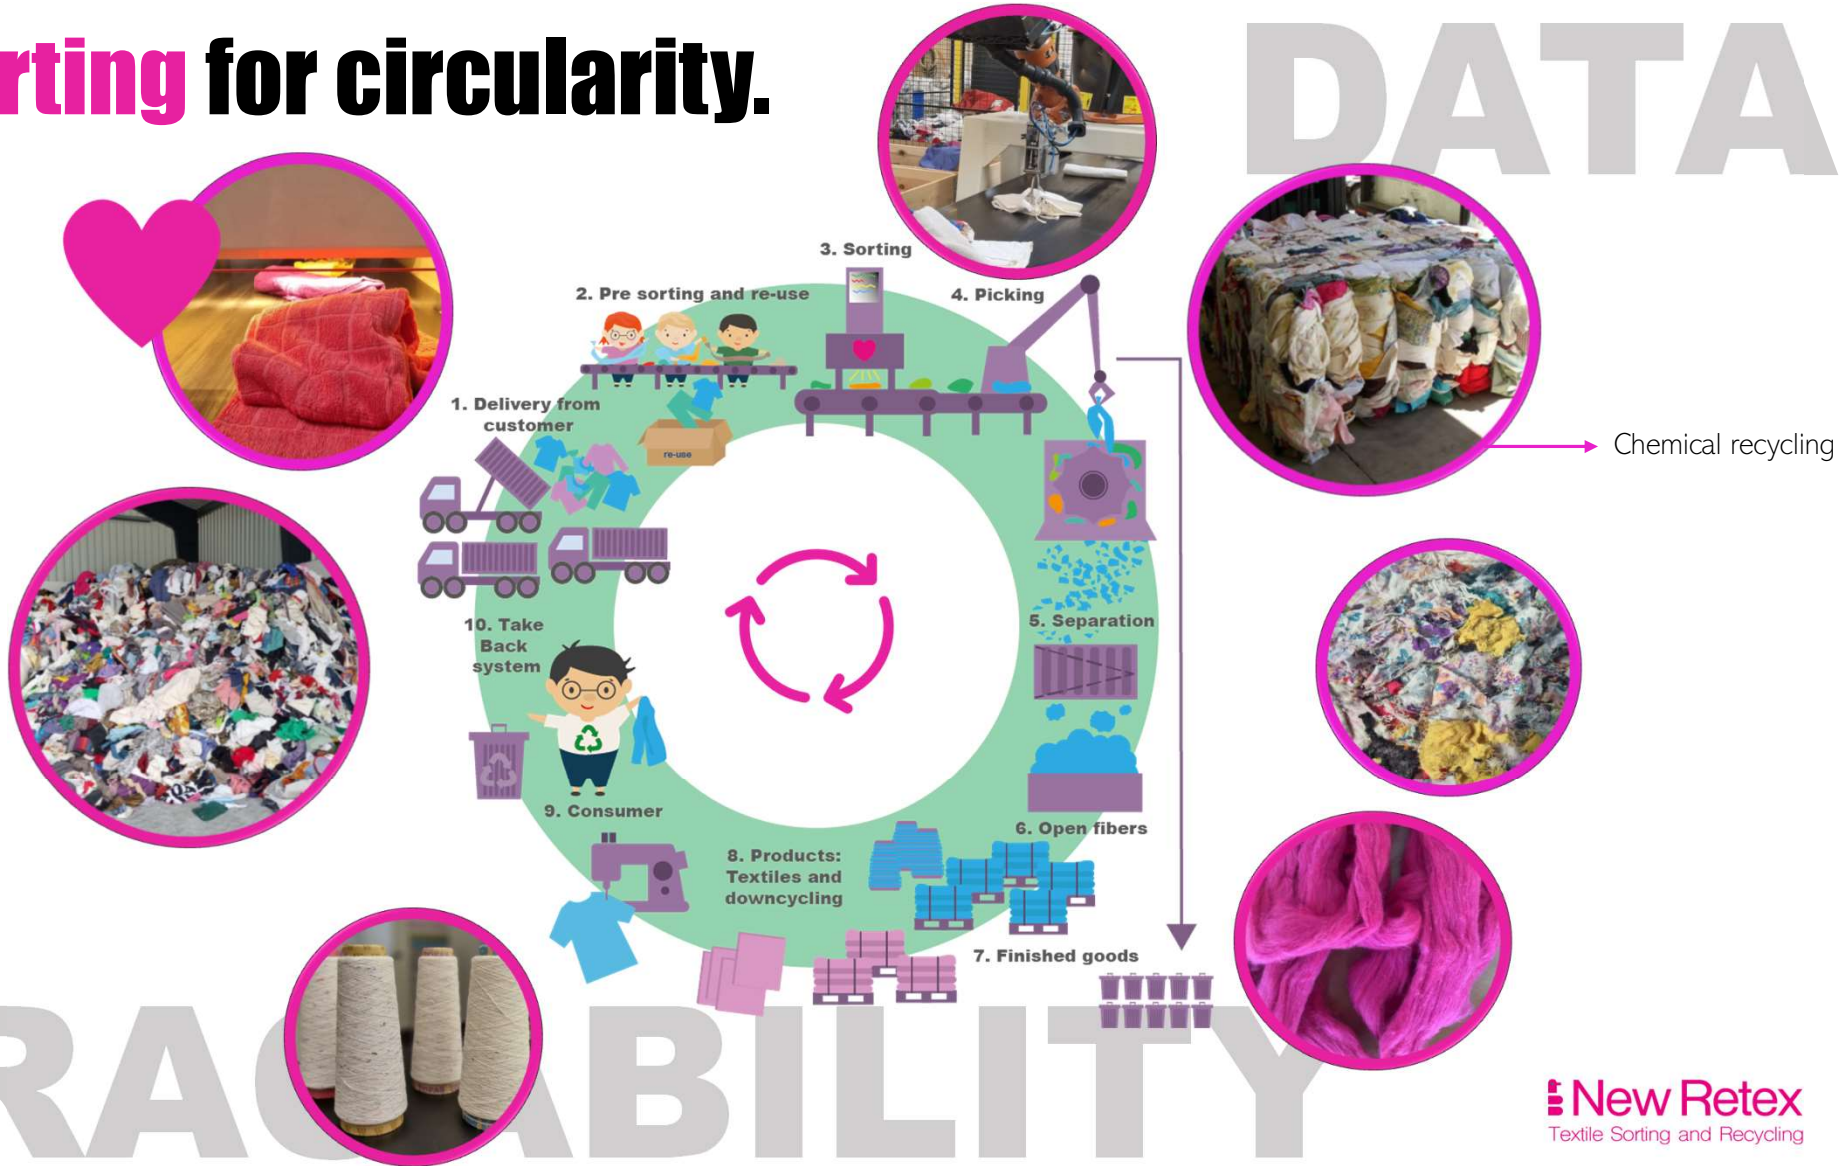

Take better care of our planet and the people living on it.

---

*The textile industry is facing a large green transition, and NewRetex is a part of the solution.*

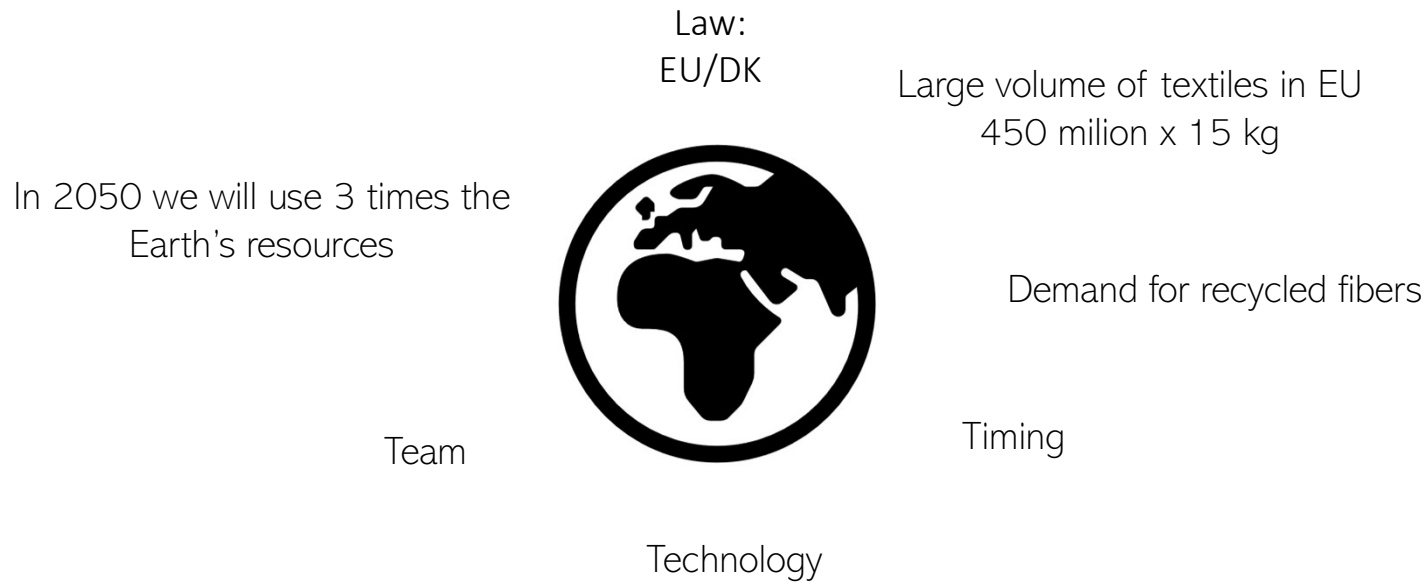

# Sorting for circularity.

# DATA

# TRACABILITY

# Creating a sustainable business, internationally:

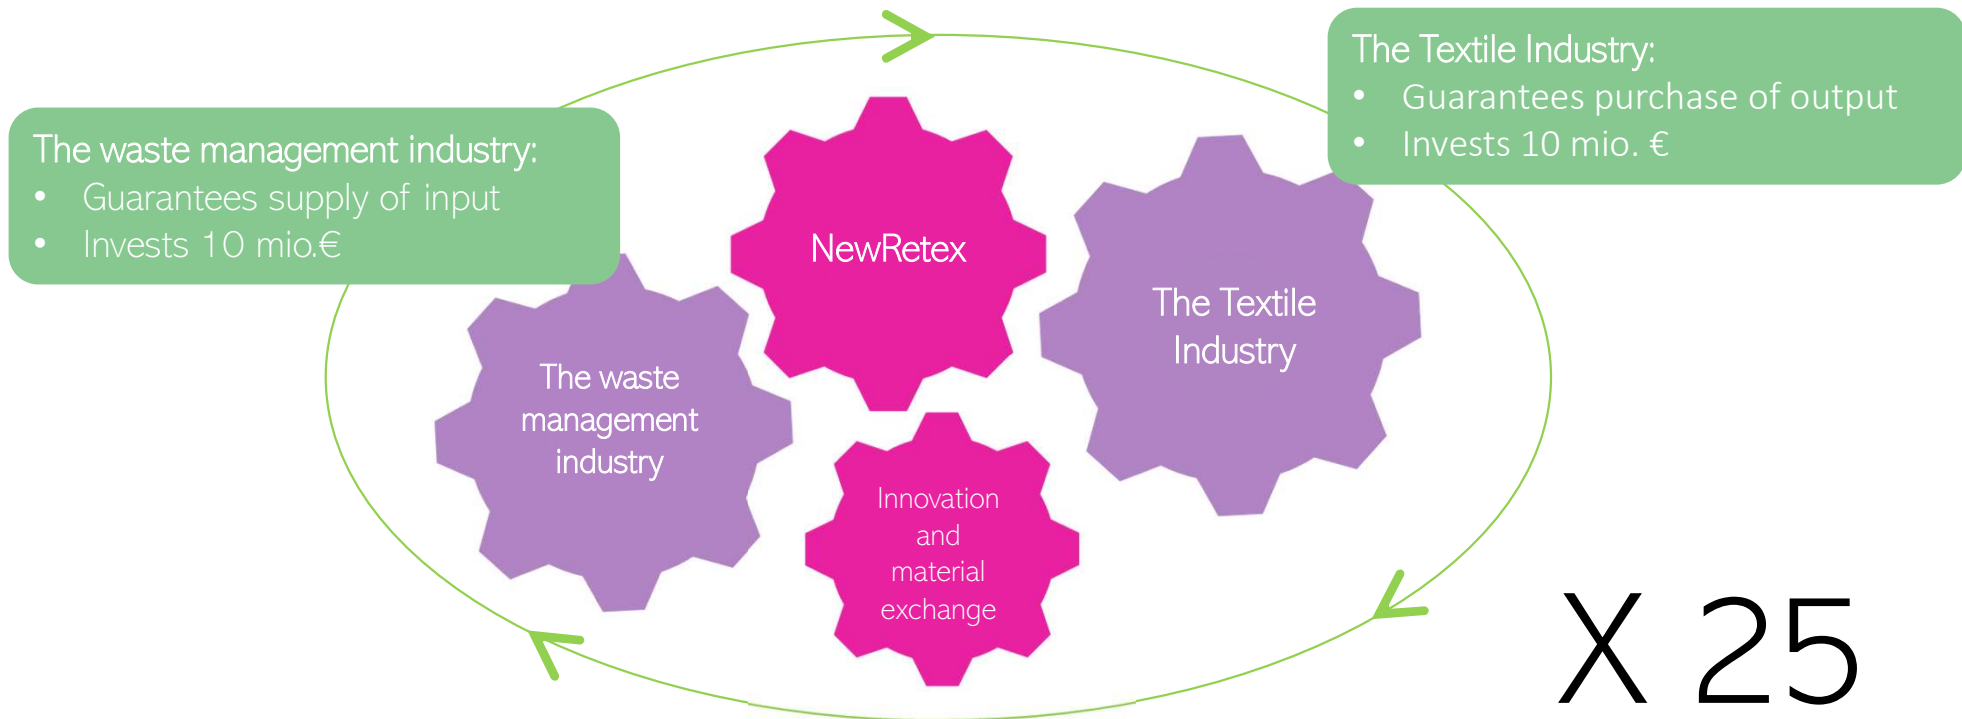

---

*NewRetex has the advanced sorting technology needed to become a market leader of controlling the resource that is discarded textiles.*

# The business model of the future:

- Investment example for 40.000 annual tonnes capacity

*A new type of business model for creating a circular loop, based on transparency and data sharing to supply the fibers of the future.*

*NewRetex is the link which joins the waste management industry with the textile industry.*
